## Intellectual Property Rights (IPR) Cell

The goal of this Policy is to ensure that Intellectual Property created by Members is utilized in ways most likely to benefit the institution and the public. In properly disclosing all Intellectual Property that they create, in complying with applicable laws and formal agreements, and in gaining the protection available under laws governing patents, copyrights and other intellectual property rights. Likewise, our Institution seeks to ensure that commercial benefits are distributed in a fair and equitable manner that recognizes both the contributions of the Members and the interests of the college.

Research & Development Centre was established to provide the facilities for research and development to all the students and faculty members. R&D Centre welcomes new ideas and encourages interdisciplinary research work to perceive the highest standards of ethics and integrity in the conduct of their research, all the students and faculty must follow the Code of ethics.

### Purpose

- To create an awareness about IPR for Faculty Members and students of the Institution.
- To impart training on future endeavors regarding patent filing processes
- To conduct workshops, seminars and training course on IPR.
- Communicate the IPR Policy to the various stakeholders and the Inventors of the Institution, students in general.
- Identify prospective inventions, innovations, Service improvement ideas and Copyrights.
- Compensate the Inventors with due reward for encouraging inventions.
- To promote technology advancements for improved quality of life and environment protection.

### Accountabilities

- IPR cell shall guide and help the faculty members and students of SICET in patentability assessment and to apply for various IPRs such as Invention(s), Designs, Integrated Circuit Layouts and other creative works,
